GENETIC TESTING

This symbol indicates that the vendor of this animal has chosen for it to undergo further genetic testing for the purpose of informing breeding programs. These tests may include; myostatin, polled, coat colour, genomic carcass traits testing and parent verification. Please ask the vendor for details.

Breeding Guarantees

Bull- In the unlikely event of infertility, the vendor guarantees that (WITHOUT EXPENSES, interest, costs and damages) if the bull proves to be totally infertile or totally incapable of natural service, provided it is not caused by an injury or disease contracted since leaving the sale, to either replace with an animal of comparable value or credit to the full purchase price will be given at the next sale or on a private sale animal upon return of the affected bull. If the bull does not possess a reasonable fertility, although not totally infertile, any claim shall be considered on its merits by the vendor and his veterinarian.

Any complaint must be lodged with a veterinary certificate within 6 months of the sale direct to the vendor.

Females- All females are sold as guaranteed breeders. In the unlikely event that a female cannot be bred successfully within 6 months from the date of the sale or by the time the female reaches 22 months, the vendor guarantees (without expenses, interest, costs and damages) the purchase be refunded or a replacement female will be given (provided that the purchased female has not been injured or contracted a disease since leaving the sale) upon return of the affected female. This guarantee does not apply to a female that is entered into an embryo transfer programme. The purchaser shall produce a veterinary certificate when required.

| NOTTA RENDEZVOUS 65R [P] (Speckled)  

**Notes:** This has been a very hard decision to part with my favourite cow. But in doing so it will give another breeder the chance to have such a wonderful girl in their herd. Heart Braker was Supreme Exhibit at Canberra 2014, as a heifer. Her first calf Miss Joelle was my best heifer I have bred she had exceptional looks and temperament, shown by many kids at shows. Her second calf a bull calf I have just weaned at 10 months is going to have the same Quality and temperament. Heart is back in calf to Double L George who Miss Joelle was by. If I had the land this girl would never leave!

### Notes:
We put this genetic combination together last year exclusively for Notta Ranch. All the embryos were kept and put in fresh. The results were outstanding! Hands down they are the best calves to hit the snow so far. Theta 42T is a structurally correct, never miss, foundation building type female. Joined with our new herd sire Bart, who has shown us that he has what it takes to work for Notta Ranch. These embryos are where it's at! And not were it's been. We will have full siblings to these representing Notta Ranch at Canadian Western Agribition 2017.
