# Ordering DNA

We make building your genetic profile easy

**1**  
Order your wet TSU or Birthset through the SPI website or PBB and these will be dispatched direct to you from Neogen Australia.

**2**  
Tag and sample selected animals. Ensure animals are recorded with SPI registry.

**3**  
Fill out order form and email to [dna@pbbnz.com](mailto:dna@pbbnz.com). Hold off sending samples until batch submission paperwork is emailed to you from PBB DNA.

**4**  
Enclose order details and courier samples to Neogen  
**BATCH SUBMISSION PAPERWORK MUST BE INCLUDED**

**5**  
Results are uploaded to the SPI system and sent to breeder. Registry are also notified so eligible registrations can be finalised.

**6**  
Your herd records and EBVs are updated
